

MORROW WANTS BILLS TO AUTHORIZE STREETS

Commissioners Macfarland and Morrow still are at odds concerning the conversion of Blagden's alley, Logan Place, and Freeman's alley into minor streets. Commissioner Morrow has recommended that these alleys be dropped as in his opinion the necessary expenditure is not justifiable.

Commissioner Macfarland has said that he cannot agree that there should be any halt in the conversion of alleys into minor streets as the Commissioners have secured the legislation and appropriation for this purpose because of their conviction that it was essential to the well-being of the community. Commissioner Morrow said today that he opposes the conversion of the alleys because the District has not the authority or funds to conduct condemnation proceedings. His plan is to have three bills introduced in Congress for authority and appropriation for the condemnation proceedings in each instance.

Commissioner Morrow today said that while he is in favor of the conversion of alleys into minor streets wherever possible, he will not reach a conclusion in the present instance until after a personal inspection of the alleys named.
